JENIN FOR FOOD INDUSTRIES

About Us

JENIN for food industries is a leading egypt producer of pickled products that excel in their taste and quality.

Some Of The Ingredients Grow In The Whole Country.

The plant produces annually thousands of tons of a wide variety of artichoke, cucumbers, pepper, olives and pickled vegetables, tomato paste and grape leaves.

Our Mission

The plant has maintained its position as a leading company in the market, thanks to a strategic decision made by the management to maintain a high quality of the products. in order to achieve this, the factory has been equipped with the best automated equipment available. the plant was expanded and modernized.

In addition, we continue to develop and enrich our varied products by the use of original, genuine and natural additives, and concentrates, which are used to enhance the flavor.

Our Vision

Produces Safety and Healthy Food from Egypt to the Worldwide.
